**IMPORTANT:** You must have a license for every system in your store. This is a hardware upgrade ONLY. Your original hardware can only be used as an emergency BACK-UP system. If your original system is sold or moved to another location, contact your coordinator to purchase the required software licenses. Systems sold to other stores will not be covered under warranty or offered phone support through the Micros help desk. Software support will be available through the FWH POS help desk. Hardware support will not be available.
